Dear Dr. Fraumeni:

Receipt is acknowledged of your letter of February 3 in which you request clearance to send Professor Joshua Lederberg a list of ACS members who died of pancreatic cancer, and an abbreviated list of those who died of other causes.

There would be no objection to your supplying Professor Lederberg with the lists provided you stress the confidential nature of the material, and we appreciate your continued stress of the confidential and prudent handling of the data.

Sincerely yours,

*(Miss) Lucy Massey*
